

Give what they truly wish for.

A wedding gifting platform where couples build one shared wish list — and friends & well-wishers fund or fully buy each gift.

The problem with wedding gifting today

Couples receive the wrong gifts. Guests struggle to give meaningfully.

Duplicates & returns

Couples end up with three blenders and nothing they actually need.

Awkward cash gifts

Giving money feels impersonal, untracked, and hard to do well.

Retailer lock-in

Traditional registries tie you to one store and physical products only.

Distance is hard

Guests abroad or unable to attend have no easy, secure way to give.

The idea

*Every gift
becomes a
fundable goal.*

One retailer-agnostic platform blending a wish list, group funding, and cash gifts.

What a guest can do with any item

Buy it outright

Purchase a whole item in one tap — done.

Chip in partially

Contribute any amount toward a bigger goal: a honeymoon, a fridge, a home deposit.

Join a group gift

Several guests pool together to fully fund one expensive item.

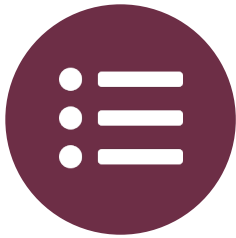

Give to a cash fund

Add to an open fund — honeymoon, new home, or a chosen charity.

How Agamos works

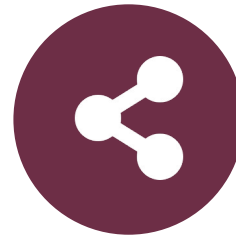

Three easy steps for the couple — one for every guest.

STEP 1

Build your wish list

Add gifts from any store, the Agamos catalog, or set cash goals like a honeymoon or home deposit.

STEP 2

Share your page

Send one beautiful link. Guests see your story, browse what's needed, and pick a gift in seconds.

STEP 3

Receive & redeem

Guests buy or chip in. Withdraw cash or redeem items — then thank everyone with built-in tools.

Everything in one place

A wish list, group funding, and cash gifts — with trust and a personal touch.

Universal registry

Any item from any store by link, or pick from a curated catalog. No retailer lock-in.

Fund any goal

Full-purchase or partial contributions. Honeymoons, homes, charity cash funds.

Group gifting

Guests pool together to fund one big item, with a live progress bar.

Personal messages

Every gift carries a heartfelt note — and optional photo — from the giver.

Secure payouts

Funds held safely; verified payouts. Cards, transfer & mobile money.

Guest checkout

Well-wishers give in under a minute — no account needed, even from abroad.

Loved by both sides of the gift

For the couple

- ✓ One shared list — zero duplicates
- ✓ Cash funds for honeymoons & homes
- ✓ Track every contribution in real time
- ✓ Withdraw cash or redeem items
- ✓ Built-in thank-you tracking

For guests & well-wishers

- ✓ See exactly what the couple wants
- ✓ Buy outright or chip in any amount
- ✓ Join a group gift in one tap
- ✓ Add a personal message & photo
- ✓ Give securely without an account

Why now

Cash and experiences are how people gift today.

Retailer-agnostic

Works with any store, any product, any currency — and pure cash funds.

Experience-first

Honeymoons and homes matter more to couples than another kitchen gadget.

Group funding gap

No incumbent does partial + group + cash gifting in one trusted place.

Couples get exactly what they want. Guests give something that truly matters.

How Agamos makes money

Aligned with couples and guests — transparent, optional, low-friction.

1

Platform fee

A small, transparent fee on cash contributions — with an optional "cover the fee" toggle for guests.

2

Affiliate revenue

Commission from catalog and retailer purchases made through the registry.

3

Premium pages

Custom domains, themes, and video for couples who want a standout wedding page.

Phased roadmap

Ship a trusted core first, then deepen funding, reach, and intelligence.

Phase 1

MVP

Registry builder, fundable goals, guest checkout, secure payouts with KYC, thank-you tracking.

Phase 2

Scale

Group-gift enhancements, native mobile apps, themes, multi-currency support.

Phase 3

Expand

Multi-event support, vendor marketplace, and AI-powered gift suggestions.

Agamos

Give what they truly wish for.

One shared wish list · Group & cash gifting · Secure payouts · Heartfelt every time
